DETAILED ACTION

1. This Office action is responsive to the amendment filed on 04/12/2007.
2. The indicated allowability of claims 1, 12, 13, 21-25 is withdrawn in view of the new rejection.

Claim Rejections - 35 USC § 112

3. Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 recites the limitation "the interrogation device" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 2821

5. Claims 1, 12, 13, and 21-25 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-3, 5, and 13-16 of copending Application No. 10/784,109. Although the conflicting claims are not identical, they are not patentably distinct from each other because they commonly comprise a RFID system having an antenna and a substantially contiguous conductive shield positioned around the antenna, the conductive shaped the electromagnetic to extend substantially in a direction perpendicular to the antenna, and prevented the electromagnetic field from forming substantially over the conductive shield, wherein the antenna comprises a plurality of conductive loops spaced apart at least a distance D, the RFID tag has a maximum dimension M, and the distance D is selected such that $D \geq M$,...

This is a provisional obviousness-type double

6. Claim 26 is provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 25 of copending Application No. 10/784,109. Although the conflicting claims are not identical, they are not patentably distinct from each other because they commonly comprise the method having the steps of determining a dimension M of a RFID tag, selecting a distance D based on the dimension M, and positioning a plurality of an a plurality of conductive loops antenna the selected distance D apart for communication with the RFID tag within the RFID system.

Allowable Subject Matter

7. Claim 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. Claims 4-11, 15, 18-20, 28-35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
